

MCA Semester-I
CS-404: Discrete Mathematics
Class Assignment - 1

Date 27/09/2025

Assignment must be turned in today at 11:00am.

References are mandatory for this assignment.

1. Is there any relation between principle of mathematical induction and *function recursion*? Justify your answer.
2. Define the following – *relatively prime, congruence class, base b expansion of n .*
3. Write an algorithm to add *base 2 expansions* of two integers **a** and **b**.
